Subject: Shipment of Facility Type Items - Special Project.

We have been directed by the Contracting Officer to ship the following described items:

One Peragon-Revolute Blueprint Machine
Two Monroe Calculators

These items are to be shipped on a commercial bill of lading prepaid to:

General Services Administration

25X1A

Shipping charges will be charged direct to our project per agreement with A.C.D. Also, other costs in connection herewith that are normally charged direct will be so treated.

I called attention to the fact that we might need these in about 90 days. Jim said he has discussed this with Gene. Gene felt that in such case we would buy more, but that he felt it would be better to ship these now, and if at a later date they were needed to proceed to buy more rather than let these items be idle for the interim, and buy more items now knowing that they might not need these items at Fort Worth.

Will you please take necessary steps to implement the above shipment?
